

Press Release –August 2007
Washington Mayfair Hotel

“Suman Mitra brings wealth of experience to Washington Mayfair Hotel”

Washington Mayfair Hotel is delighted to announce the appointment of Suman Mitra as Food & Beverage Manager at the Hotel. As well as running the conference & banqueting operations and room service, Suman will oversee the development of the award winning Madison's bar and restaurant.

Having trained at the prestigious International Institute of Hotel Management in India, Suman has trained and gained experience from some of the leading hotels in the world.

As part of the opening team at the Grand Hyatt Mumbai in India, Suman certainly knows about Food and Beverage, with 4 Food and Drive outlets, 547 bedrooms and suites and 147 apartments. Having enjoyed the success of the opening, Suman moved onto the Grand Hyatt Dubai an increasingly desirable area for hotels and resorts.

Wanting to experience London, Suman came and joined the Selfridges group of companies, managing retail food and beverage outlets in London, Birmingham and Manchester.

In a return to Hotels', he joined the Holiday Inn to further increase his localized Food and Drink knowledge and then chose the Washington Mayfair Hotel as his London base.

Suman has a passion for customer service and offering outstanding product. The Washington Mayfair Hotel perfectly partners this with over 94 years experience as a hotel. With refurbishment plans well on the way, the art deco hotel will prove to be tough competition for recently opened and refurbished hotels in the area.

The refurbishment plans are exciting and the show bedroom has already been approved. The plans include a revision of all guest and public spaces, in particular F&B which will benefit from outside terrace seating in the future. Suman and the Washington Mayfair Hotel team look forward to the continued relationship with existing guests and the introduction of new ones!
